

April 11, 2016

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2014-15 educational progress for the Crawford Excelsior District #1. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Paul Bauer for assistance.

The AER is available for you to review electronically by visiting the following web site [crawfordschool.com/Pag2.html](http://crawfordschool.com/Pag2.html), or you may review a copy in the main office at your child's school.

We work very hard to provide our students with a sound academic program within our small, nurturing environment. As indicated in the school score card, math achievement is an area of concern. We are transitioning to the common core state standards and will continue to address this academic area.

State law requires that we also report additional information.

**Assigning pupils** something about wait list, enrollment cap due to size, schools of choice

The updated school improvement plan can be located via the school website. Goals and strategies to increase achievement in all content areas are included.

The school is currently implementing the Michigan Common Core State Standards, these standards can be accessed at [www.michigan.gov/mde](http://www.michigan.gov/mde) Grade level specific curriculum can be accessed through the classroom teacher.

Over the past two years, students at Crawford have taken NWEA assessments. While many of the students are showing growth at or above the national average, overall scores are below the national average.

Crawford school remains committed to monitoring, evaluating and improving our instructional practices based upon the needs demonstrated through student learning and understanding. We will embed our improvement strategies across all content areas to support all learners within our unique setting. We appreciate the opportunity to work with the students and community of Crawford!

Sincerely,

Paul Bauer  
Director of Instructional Services
